

HYBRID LEARNING ENVIRONMENTS CORPORATE APPLICATIONS

IN ROOM. ONLINE. BE THERE.

Enjoy an even smarter way of working. The CORIOmaster family offers a unique, mixed reality stage where all participants remain totally engaged throughout every meeting whether they are seated in the meeting room or joining remotely.

In this meeting room example, we will be featuring CORIOmaster micro which features up to eight inputs in a super compact, half width 1RU, form factor.

Remote participants see the presentation and speaker

A laptop, connected via HDMI, controls the presentation shown on the LED screen.

Two ceiling mounted PTZ cameras film the speaker and presentation for remote participants

A large LED wall provides the screen for the meeting room's presentation.

EQUIPMENT LIST

- 1 x CORIOmaster micro (C3-503)
- 1 x Quad HDMI input card (CM-HDMI-4IN)
- 1 x Streaming media input module (CM-AVIP-IN-1USB-1ETH)
- 1 x 4K Output Module (CM-HDMI-4K-SC-2-OUT)
- 6 x Magenta Active Optical cables with Low Smoke Zero Halogen 15m HDMI cables (MG-AOC-663-15)
- 2 x PTZ cameras
- 1 x LED wall (3840 x 2160) with 4K sender box and mounts
- 1 x Control panel (1T-CL-322)
- 1 x Computer with current Windows operating system and network cable for setup and system programming.

Let your creativity flow to build your visual experience. Additional 4K and HD inputs, windows and outputs can be added to the system to enhance your video wall arrangement. Control up to four video walls from a single CORIOmaster unit.
