

REMOVE THE HEADACHE **WITHOUT VOIDING YOUR WARRANTY!**

THE ONErack™

ALLIANCE

The ONErack family is a universal solution to mount, power or cool all your small AV devices.

A growing list of manufacturers have joined the ONErack Alliance, formally approving ONErack and ONErack Spider as an accepted alternative to supplied power adapters. All ONErack Alliance members have one thing in common – they stand by their product warranties even after you cut the cord and leave your DC wall-wart power supply behind.

Rack it. Power it. Cool it.
Do it with ONErack
