1t-MV-8474 (4K Multiviewer) FW v3.0.1.D CL1253

New

None

Fixed

- Unit was crushing blacks with a YUV input signal at the bottom end.

Known Issues:

- Default settings of Layout 2 Window "C" Input is set to "**OFF**" and all other windows in Layouts are set to "**ON**" by default. So, Window C will not show up in Layout 2 until it is turned **ON** in the settings page.
